Services					
SERVICE NAME	SERVICE DESCRIPTION	MSRP/List	Unit of Issue	Discount % off MSRP/List	DIR Customer Price EACH/Per Unit
GTG Principal	Training, education and knowledge base transfer for GIS hardware and software, Data needs/optimization assessment, GIS assessment, health check, GIS training, education, and knowledge base transfer	<i>\$225.00</i>	Hourly	10.00%	\$204.02
GIS Director	Maintenance and support services for GIS hardware and software, Training, education and knowledge base transfer for GIS hardware and software, Data analysis and reporting, Data needs/optimization assessment, Database Management, GIS assessment health check, IT systems and GIS integration, GIS training, education, and knowledge base transfer, Aerial imagery Interpretation	<i>\$210.00</i>	Hourly	10.00%	\$190.42
Enterprise Developer	Maintenance and support services for GIS hardware and software, Data analysis and reporting, Data Creation, Database Management, Geometric networks (modeling common networks and infrastructures, such as pipelines and electrical lines), Topological, hydrological and cartographic modeling, Feature Extraction and Derivative Data Creation, Geostatistics, GIS application development, Development of web-based interfaces, Data Conversion, Geocoding and reverse geocoding, Web base application development, Global Position Services, GIS Managed Cloud Services, Web Mapping Services, IT systems and GIS integration, Aerial imagery Interpretation, Georeferencing, Change detection	<i>\$205.00</i>	Hourly	10.00%	\$185.88
Enterprise GIS Consultant	Maintenance and support services for GIS hardware and software, Training, education and knowledge base transfer for GIS hardware and software, Data analysis and reporting, Data needs/optimization assessment, Database Management, GIS assessment, health check, IT systems and GIS integration, GIS training, education, and knowledge base transfer	<i>\$195.00</i>	Hourly	10.00%	\$176.82
Corporate Software Consultant	Maintenance and support services for GIS hardware and software, Training, education and knowledge base transfer for GIS hardware and software, Data analysis and reporting, Data needs/optimization assessment, Database Management, GIS assessment, health check, IT systems and GIS integration, GIS training, education, and knowledge base transfer	<i>\$190.00</i>	Hourly	10.00%	\$172.28
Senior Project Manager	Maintenance and support services for GIS hardware and software, Training, education and knowledge base transfer for GIS hardware and software, Data analysis and reporting, Data needs/optimization assessment, Data Creation, Database Management, Geometric networks (modeling common networks and infrastructures, such as pipelines and electrical lines), Topological, hydrological and cartographic modeling, Feature Extraction and Derivative Data Creation, Map overlay creation (2D, 3D, and 4D), such as property parcels, facilities, utilities, corridors, and other governmental boundaries and public infrastructure, Planimetric mapping (manmade and natural features, such as roads, lakes, and buildings), Vegetation Rasters and Vectrs, Geostatistics, GIS application development, GIS assessment, health check, Development of web-based interfaces, Data Conversion, CAD to GIS, ETL (Extract Transform Load), Coordinate System (Projections) transformation, Formatting, Geocoding and reverse geocoding, Web base application development, Global Position Services, GIS Managed Cloud Services, Web Mapping Services, IT systems and GIS integration, GIS training, education, and knowledge base transfer, Aerial imagery Interpretation, Field data collection, Georeferencing, Change detection	<i>\$180.00</i>	Hourly	10.00%	\$163.22
Enterprise DBA	Maintenance and support services for GIS hardware and software, Training, education and knowledge base transfer for GIS hardware and software, Data analysis and reporting, Data Creation, Database Management, Geometric networks (modeling common networks and infrastructures, such as pipelines and electrical lines), Feature Extraction and Derivative Data Creation, Map overlay creation (2D, 3D, and 4D), such as property parcels, facilities, utilities, corridors, and other governmental boundaries and public infrastructure, Planimetric mapping (manmade and natural features, such as roads, lakes, and buildings), Vegetation Rasters and Vectors, Geostatistics, Data Conversion, CAD to GIS, ETL (Extract Transform Load), Coordinate System (Projections), transformation, Formatting, IT systems and GIS integration	<i>\$155.00</i>	Hourly	10.00%	\$140.55

SERVICE NAME	SERVICE DESCRIPTION	MSRP/List	Unit of Issue	Discount % off MSRP/List	DIR Customer Price EACH/Per Unit
Software Engineer	Data Creation, Database Management, Geometric networks (modeling common networks and infrastructures, such as pipelines and electrical lines), Topological, hydrological and cartographic modeling, Feature Extraction and Derivative Data Creation, Geostatistics, GIS application development, Development of web-based interfaces, Data Conversion, Geocoding and reverse geocoding, Web base application development, , GIS Managed Cloud Services, Web Mapping Services, IT systems and GIS integration, Aerial imagery Interpretation, Georeferencing, Change detection	<i>\$150.00</i>	Hourly	10.00%	\$136.01
GIS Application Developer	Data analysis and reporting, Data Creation, Database Management, Geometric networks (modeling common networks and infrastructures, such as pipelines and electrical lines), Topological, hydrological and cartographic modeling, Feature Extraction and Derivative Data Creation, Geostatistics, GIS application development, Development of web-based interfaces, Data Conversion, Geocoding and reverse geocoding, Web base application development, , GIS Managed Cloud Services, Web Mapping Services, IT systems and GIS integration, Aerial imagery Interpretation, Georeferencing, Change detection	<i>\$135.00</i>	Hourly	10.00%	\$122.41
Data Scientist/ETL	Data needs/optimization assessment, GIS assessment, health check, Data analysis and reporting, Data Creation, Database Management, Feature Extraction and Derivative Data Creation, Geostatistics, Aerial imagery Interpretation	<i>\$135.00</i>	Hourly	10.00%	\$122.41
Senior GIS Analyst	Data needs/optimization assessment, GIS assessment, health check, Data analysis and reporting, Data Creation, Database Management, Feature Extraction and Derivative Data Creation, Geostatistics, Aerial imagery Interpretation	<i>\$120.00</i>	Hourly	10.00%	\$108.81
Technical Support Specialist	Maintenance and support services for GIS hardware and software, 4, 30, Data analysis and reporting, IT systems and GIS integration	<i>\$115.00</i>	Hourly	10.00%	\$104.28
GIS Technician	Data analysis and reporting, Data Creation, Database Management, Geometric networks (modeling common networks and infrastructures, such as pipelines and electrical lines), Topological, hydrological and cartographic modeling, Feature Extraction and Derivative Data Creation, Geostatistics, GIS application development, Development of web-based interfaces, Data Conversion, Geocoding and reverse geocoding, Web base application development, Global Position Services, GIS Managed Cloud Services, Web Mapping Services, IT systems and GIS integration, Aerial imagery Interpretation, Field data collection, Georeferencing, Change detection	<i>\$95.00</i>	Hourly	10.00%	\$86.14
GIS Strategic Planning	GIS Strategic Implementation Plan - A comprehensive and multi-year GIS Strategic Implementation Plan takes approximately two to six months and includes Geographic Technologies Group's three-phase, seven-step strategic planning methodology. It involves a GIS Needs Assessment, Alternative System Design, and a Phased GIS Implementation Plan. The purpose of this plan is to provide your organization with a comprehensive roadmap to GIS success. It uses the Six Pillars of GIS Sustainability to guide the roadmap. Training, education and knowledge base transfer for GIS hardware and software, Data needs/optimization assessment, GIS assessment, health check, Data analysis and reporting	<i>\$100,000.00</i>	Each	10.00%	\$90,675.00
GIS Strategic Planning	GIS Strategic Assessment- The GIS Strategic Assessment is a two to three-week review and evaluation of your organization's GIS. The objective of the Assessment is to evaluate the current and future state of your GIS. The GIS Assessment creates a step-by-step plan of action. It also includes a presentation to decision-makers on Existing GIS Conditions and Future Requirements. Training, education and knowledge base transfer for GIS hardware and software, Data needs/optimization assessment, GIS assessment, health check, Data analysis and reporting	<i>\$25,000.00</i>	Each	10.00%	\$22,668.75

SERVICE NAME	SERVICE DESCRIPTION	MSRP/List	Unit of Issue	Discount % off MSRP/List	DIR Customer Price EACH/Per Unit
GIS Strategic Planning	GIS Express Checkup-The GIS Check-Up is a five-day award-winning methodology that includes a two-day onsite visit to conduct a GIS Questionnaire, a rapid GIS Needs Assessment through a GIS Workshop, and Departmental Interviews. The GIS Check-Up enables you to create a clear and concise strategy for improving your organization's GIS solution. Training, education and knowledge base transfer for GIS hardware and software, Data needs/optimization assessment, GIS assessment, health check, Data analysis and reporting	\$15,000.00	Each	10.00%	\$13,601.25
GIS Strategic Planning	GIS Architectural Design- will meet all of the needs, constraints, and priorities of your organization in terms of performance, effectiveness, sustainability, and economics. It includes a detailed look at Governance, Enterprise GIS Data and Databases, GIS Software Solutions, GIS Education and Training, and the overall IT Architectural Design. Training, education and knowledge base transfer for GIS hardware and software, Data needs/optimization assessment, GIS assessment, health check, Data analysis and reporting, IT systems and GIS integration	\$30,000.00	Each	10.00%	\$27,202.50
GIS Strategic Planning	Enterprise GIS Data Management Plan -A data management plan includes an assessment of your organization's data and outlines the results and recommendations for best business practices regarding data management within your organization. Data needs/optimization assessment, GIS assessment, health check, Data analysis and reporting, IT systems and GIS integration	\$30,000.00	Each	10.00%	\$27,202.50
Product Support	GreenCityGIS product set-up, deployment, and training	\$30,000.00	Each	10.00%	\$27,202.50

BRAND	CATEGORY	PRODUCT DESCRIPTION	PRODUCT PART NUMBER	Manufacturer	MSRP	DISCOUNT % OFF MSRP	DIR CUSTOMER PRICE
Geographic Technologies Group	GIS Software Products	SafeCityGIS Dispatch - Computer Aided Dispatch (CAD) mapping interface that provides E-911 dispatchers with an interactive map displaying the location of all emergency calls. Uses the latest and most innovative technology to connect to mission critical data. Software for office use, Data collection, maintenance, visualization, analysis and sharing, Software for geographic query, analysis, and visualization, Graphical user interfaces (GUIs), Multiple GIS platforms integration, Web based applications to connect users to GIS information	N/A	Geographic Technologies Group, Inc.	\$30,000.00	10.00%	\$27,202.50
Geographic Technologies Group	GIS Software Products	SafeCityGIS Crime Analysis - Crime reporting, mapping and analysis.Aids in the visualization and analysis of law enforcement and fire incident information and enables automated mapping of incident addresses and call information,dynamic query, & browsing. Software for office use, Data collection, maintenance, visualization, analysis and sharing, Software for geographic query, analysis, and visualization, Graphical user interfaces (GUIs), Multiple GIS platforms integration, Web based applications to connect users to GIS information	N/A	Geographic Technologies Group, Inc.	\$20,000.00	10.00%	\$18,135.00
Geographic Technologies Group	GIS Software Products	SafeCityGIS Mobile - Allows users to access important GIS and 911-dispatch information. Active incidents, Automated Vehicle Location (AVL) units and specific user events are all within the Mobile interface. Designed to have an easy-to-use interface. Software for office use, Software for field use, Data collection, maintenance, visualization, analysis and sharing, Software for geographic query, analysis, and visualization, Graphical user interfaces (GUIs), Multiple GIS platforms integration	N/A	Geographic Technologies Group, Inc.	\$25,000.00	10.00%	\$22,668.75
Geographic Technologies Group	GIS Software Products	SafeCityGIS Automated Vehicle Location (AVL) - Real-Time Tracking of GPS-Enabled Vehicles and Devices. SafeCity AVL provides the ability to group unit types and capabilities with unique icons such as Police, Fire, EMS, Sheriff, K-9, & more.Playback also available. Software for office use, Software for field use, Software for geographic query, analysis, and visualization, Multiple GIS platforms integration, Web based applications to connect users to GIS information	N/A	Geographic Technologies Group, Inc.	\$15,000.00	10.00%	\$13,601.25
Geographic Technologies Group	GIS Software Products	SafeCityGIS MapNimbus - Allows residents instant access, and notifications to important, relevant, and comprehensive local government information such as Crime, Accidents, Warrants, Arrests, and Citations creating a more engaged and informed community. Software for office use, Software for field use, Data collection, maintenance, visualization, analysis and sharing, Software for geographic query, analysis, and visualization, Graphical user interfaces (GUIs), Multiple GIS platforms integration, Web based applications to connect users to GIS information, Collaboration, community, and stakeholder engagement, Cloud applications	N/A	Geographic Technologies Group, Inc.	\$3,000.00	10.00%	\$2,720.25

Geographic Technologies Group	GIS Software Products	GeoAdaptor -Geo-enables your IT data.GeoAdaptor allows you to automate the GIS mapping of your data bringing it to life. It automates the entire process giving you control and allowing your users to visualize their data as soon as its created. Software for office use, Data collection, maintenance, visualization, analysis and sharing, Software for geographic query, analysis, and visualization, Multiple GIS platforms integration, Collaboration, community, and stakeholder engagement	N/A	Geographic Technologies Group, Inc.	\$12,500.00	10.00%	\$11,334.38
Geographic Technologies Group	GIS Software Products	Vision Fiber Management System (FMS) - Empower your organization to design, manage, and monitor your Fiber Network by providing a comprehensive geo-analytic toolset. This makes it easy to create and disseminate information to support day-to-day operations. Software for office use, Data collection, maintenance, visualization, analysis and sharing, Software for geographic query, analysis, and visualization, Graphical user interfaces (GUIs), Multiple GIS platforms integration, Collaboration, community, and stakeholder engagement	N/A	Geographic Technologies Group, Inc.	\$20,000.00	10.00%	\$18,135.00
Geographic Technologies Group	GIS Software Products	Vision Analytics - Plots live data on a smart map, providing accurate and timely information. Get insights on sales and service delivery, network infrastructure,geographic business intelligence, market analysis, customer care, workforce mgmt, etc.Software for office use , Software for field use, Data collection, maintenance, visualization, analysis and sharing, Software for geographic query, analysis, and visualization, Graphical user interfaces (GUIs), Multiple GIS platforms integration, Web based applications to connect users to GIS information, Collaboration, community, and stakeholder engagement	N/A	Geographic Technologies Group, Inc.	\$50,000.00	10.00%	\$45,337.50
